Pitt Worx Champion Job Description

Pitt Worx Champions will promote the Pitt Worx system, ensuring University colleagues receive complete and accurate information about system functionality, its value to the University, and the benefits of its adoption.

Champions will utilize tools provided by the Pitt Worx Change Readiness team to share information and address questions and concerns communicated by colleagues.

What will Champions do?
- Participate in scheduled, virtual briefings to learn about Pitt Worx’s capabilities
- Examine resources regarding the system, its implementation, and related activities to share with colleagues
- Interact with other Champions to transfer knowledge and experiences, and devise best practices
- Share perspective on the best means for introducing Pitt Worx to colleagues and promoting its adoption

Why be a Champion?
- Lead the way in introducing cutting-edge technology to the University
- Assist colleagues with adopting new technology by offering information and reassurance
- Expand professional network, receive coaching on delivering presentations and managing change, and contribute to designing “pulse checks” and related surveys
- Support one of the University’s top strategic priorities
- Collaborate and socialize with University leadership, project team, and other Champions

What is the Champion time commitment?
- Attend a one-hour virtual meeting once every three weeks to learn about Pitt Worx, the implementation status, timeline, and activities, and receive “sneak peaks” into upcoming communications
- Receive tools for promoting system adoption to share with colleagues
- Represent the project as a Champion for approximately five months

Any questions about the program may be submitted to worx@pitt.edu.
